Drug Use Among Native Americans is Higher than Other Racial/Ethnic Groups  
<http://www.health.org/pressrel/itn/rep/95.htm>

Indian Health Program DHS  
<http://www.dhs.ca.gov/pcfh/pcrh/html/ihp.htm>

More than 300,000 American Indians are estimated to reside in California, the highest American Indian population in the nation, with approximately 60,000 American Indians residing in Los Angeles County alone. The American Indian population in California is comprised of members of indigenous California tribes as well as members of tribes from throughout the United States. There are more than 100 indigenous California tribes, representing almost 20 percent of the nation's 500 tribal groups.
